PROFESSIONAL EXPERIENCE

Customer Support Agent

Clickworker | Remote / Germany | June 2022 - September 2023

- Supported users through live chat, email, and ticketing workflows, handling 60+ daily inquiries related to account access, payments, platform usage, task issues, and general support requests.
- Managed and categorized support tickets in Zendesk, ensuring clear documentation, accurate prioritization, and timely resolution of customer issues.
- Collaborated with billing, operations, and technical teams through Slack and Google Workspace to resolve escalated account, payment, and platform-related cases.
- Documented recurring user issues and feedback in Notion, helping improve internal processes, support documentation, and first-contact resolution.
- Assisted users with technical questions, including API-related issues, platform errors, and troubleshooting steps, while explaining solutions in a clear and user-friendly way.

Customer Support Representative

Binance | Remote | May 2024 - June 2024

- Provided real-time customer support through live chat, Telegram, Discord, HaoDesk, and BinanceAdmin, assisting users with account, transaction, security, and platform-related issues.
- Resolved inquiries related to deposits, withdrawals, spot trading, futures, copy trading, account management, Web3 features, and security processes.
- Investigated transaction concerns, clarified account status, guided users through troubleshooting steps, and escalated complex cases with accurate internal notes.
- Supported KYC/AML, fraud prevention, and account security workflows while maintaining clear communication and compliance-sensitive handling.
- Worked in a fast-paced 24/7 support environment, maintaining professionalism, accuracy, and customer-focused communication during high-volume periods.

Verified P2P Merchant | Payment, Dispute and Platform Support

OKX, Bitget, Binance, MEXC | Remote | August 2022 - May 2026

- Manage 500+ monthly P2P transactions across major digital asset platforms, supporting users with payment verification, transaction steps, dispute handling, and platform guidance.
- Communicate with buyers and sellers in real time, resolving payment delays, confirmation issues, trade disputes, and account-related questions with patience and accuracy.
- Review payment receipts, transaction details, and platform instructions to identify issues, reduce delays, and maintain safe trading practices.
- Assist users with exchange features, security practices, wallet usage, and basic trading platform navigation.
- Maintain strong practical experience in payment operations, user trust, fraud awareness, risk handling, and customer communication in high-pressure transaction environments.

Technical Support Specialist

Ethio-Telecom | Ethiopia | September 2017 - September 2019

- Provided technical support for users and internal teams by troubleshooting hardware, software, connectivity, and system-related issues through ticketing and remote support workflows.
- Diagnosed recurring technical problems, documented root causes, and collaborated with technical teams to improve resolution speed and service quality.
- Used ticketing systems, remote desktop tools, and monitoring workflows to investigate user issues, track case progress, and support timely resolution.
- Created documentation for repeated technical issues, helping improve training resources and reduce repeated support requests.
- Supported service reliability by monitoring technical incidents, escalating urgent cases, and communicating clearly with affected users and teams.

Lecturer and Researcher

Wollo University | Ethiopia | October 2019 - June 2025

- Delivered lectures on technology, software engineering, blockchain, cryptocurrency, and Web3 concepts to 500+ students, simplifying complex technical topics for different learning levels.
- Mentored students on research, technical writing, and project development, providing structured feedback and guidance.
- Published research on blockchain-based health record systems and contributed to academic work related to technology and digital systems.
- Developed strong communication, presentation, training, documentation, and knowledge-sharing skills relevant to customer education and support.

PROFESSIONAL DEVELOPMENT

Customer Support and Technical Support Career Development

2025 - Present

- Building a customer support portfolio with sample replies, troubleshooting workflows, mock tickets, escalation notes, and knowledge base examples.
- Strengthening practical skills in Zendesk, Freshdesk, Intercom, Help Scout, HubSpot Service Hub, and remote support workflows.
- Practicing customer communication, de-escalation, complaint handling, ticket prioritization, technical troubleshooting, and support documentation.
