Ticket handling

Escalation judgment

Internal documentation

EXAMPLE 1

Login Issue After Password Reset

ISSUE TYPE

Account access

PRIORITY

Medium

CHANNEL

Email support

TOOLS USED

CRM, admin dashboard, login history

CUSTOMER EMOTION

Frustrated and urgent

CUSTOMER MESSAGE

I reset my password twice but I still cannot log in. This is very frustrating because I need access to my account today.

AGENT RESPONSE

Hi [Customer Name],

I'm sorry for the trouble you're having with logging in. I understand how frustrating this can be, especially when you need access urgently.

Please try the following steps:

1. Make sure you are using the most recent password reset email.
2. Clear your browser cache or try logging in from a private/incognito window.
3. Confirm that there are no extra spaces before or after your email address.
4. Try logging in from a different browser or device.

If the issue continues, please send us a screenshot of the error message you are seeing. I will review it and help you get back into your account as quickly as possible.

Best,
Surafel

Internal note

User reports failed login after multiple password resets. Suggested basic browser/device checks and requested screenshot if issue continues. Monitor for possible account lock or 2FA issue.

Escalation

Escalate if the user receives an account lock message, 2FA error, or if login fails after browser/device testing.

Resolution

User was guided through basic troubleshooting steps. If unresolved, the case would be escalated to the account/security team.

EXAMPLE 2

Payment Pending

ISSUE TYPE

Billing/payment

PRIORITY

Medium

CHANNEL

Ticketing system

TOOLS USED

Billing panel, payment provider reference, CRM

CUSTOMER EMOTION

Concerned

CUSTOMER MESSAGE

I paid for my subscription but my account is still showing unpaid. Why is this taking so long?

AGENT RESPONSE

Hi [Customer Name],

Thank you for reaching out. I understand your concern, especially after you have already completed the payment.

Sometimes payments can take a little time to update depending on the payment provider or bank processing time. To help us check this faster, please send the following details:

1. Payment date and time
2. Amount paid
3. Payment method used
4. Transaction reference or receipt screenshot

Once we receive this, we can check the payment status and update you with the next step.

Best,
Surafel

Internal note

Customer reports paid subscription still showing unpaid. Requested payment details and proof of payment. Needs billing panel verification.

Escalation

Escalate to billing team if payment exists but account status is not updated.

Resolution

Payment evidence requested. Billing verification required before confirming account update.

EXAMPLE 3

Refund Request from Angry Customer

ISSUE TYPE

Refund request

PRIORITY

Medium

CHANNEL

Email support

TOOLS USED

CRM, billing panel, refund policy

CUSTOMER EMOTION

Angry and urgent

CUSTOMER MESSAGE

This service did not work for me. I want my money back immediately.

AGENT RESPONSE

Hi [Customer Name],

I'm sorry to hear that the service did not meet your expectations. I understand why you would want this resolved quickly.

I can help review your refund request. Before I proceed, could you please confirm:

1. The email address linked to your account
2. The payment date
3. The reason the service did not work as expected
4. Any error message or issue you experienced

Once I have these details, I'll check your account and guide you based on our refund policy.

Best,
Surafel

Internal note

Customer requested immediate refund and appears frustrated. Responded calmly, requested account and payment details, and avoided promising refund before policy/account review.

Escalation

Escalate to billing/refund team if payment is confirmed and refund eligibility needs approval.

Resolution

Customer was acknowledged professionally and moved toward a policy-based refund review.

EXAMPLE 4

KYC Verification Delayed

ISSUE TYPE

KYC verification

PRIORITY

Medium

CHANNEL

Live chat

TOOLS USED

KYC panel, account status, internal notes

CUSTOMER EMOTION

Impatient

CUSTOMER MESSAGE

I submitted my documents yesterday but my account is still not verified. I need to trade now.

AGENT RESPONSE

Hi [Customer Name],

Thank you for submitting your verification documents. I understand that you want to start using your account as soon as possible.

KYC reviews can sometimes take longer if the system needs additional checks or if the submitted document image is unclear. Please make sure that:

1. Your document is not expired
2. The full document is visible
3. The image is clear and not blurry
4. The name matches your account information

I'll check the current status of your verification and update you if any additional action is needed from your side.

Best,
Surafel

Internal note

User submitted KYC documents and is waiting for approval. Explained possible delay reasons and will check verification status.

Escalation

Escalate if KYC is stuck beyond normal review time or if manual review is required.

Resolution

User received clear explanation and next-step assurance without guaranteeing approval.

EXAMPLE 5

Crypto Deposit Not Showing

ISSUE TYPE

Crypto deposit

PRIORITY

High

CHANNEL

Crypto support ticket

TOOLS USED

Blockchain explorer, wallet status, admin tools

CUSTOMER EMOTION

Worried and urgent

CUSTOMER MESSAGE

I sent USDT to my account but it is not showing. I need this checked now.

AGENT RESPONSE

Hi [Customer Name],

I understand your concern. I'll help you check the deposit status.

Please send the following information:

1. Transaction hash/TXID
2. Deposit network used
3. Deposit address
4. Amount sent
5. Approximate time of the transaction

Crypto deposits may take time depending on the blockchain network, confirmation requirements, or whether the correct network was selected. Once I have the TXID, I can help review the transaction status and advise on the next step.

Best,
Surafel

Internal note

Customer reports missing USDT deposit. Requested TXID, network, amount, address, and timestamp. Need to check blockchain confirmation and internal deposit status.

Escalation

Escalate to wallet/technical team if transaction is confirmed on-chain but not credited internally.

Resolution

Customer was asked for required transaction details to begin investigation.

EXAMPLE 6

P2P Buyer Marked Paid But Seller Did Not Receive Funds

ISSUE TYPE

P2P dispute

PRIORITY

High

CHANNEL

P2P dispute queue

TOOLS USED

Order panel, payment proof, chat history

CUSTOMER EMOTION

Concerned and protective

CUSTOMER MESSAGE

The buyer clicked paid but I have not received any money in my bank account. Please cancel this order.

AGENT RESPONSE

Hi [Customer Name],

Thank you for reporting this. Please do not release the crypto until you have confirmed that the payment has arrived in your bank account.

To help review this case, please provide:

1. A screenshot of your bank transaction history for the relevant time period
2. The order number
3. The buyer's payment proof if available
4. Any chat messages related to the payment

We will review the evidence from both sides and take the appropriate action based on the payment status.

Best,

Surafel

Internal note

Seller reports buyer marked paid but funds not received. Advised seller not to release crypto. Requested bank statement screenshot and order details. Evidence review required.

Escalation

Escalate to P2P dispute/risk team if buyer and seller evidence conflicts.

Resolution

Seller was protected from releasing funds prematurely while evidence collection started.

EXAMPLE 7

User Sent Crypto on Wrong Network

ISSUE TYPE

Wrong-network deposit

PRIORITY

High

CHANNEL

Crypto support ticket

TOOLS USED

Blockchain explorer, wallet team queue, admin tools

CUSTOMER EMOTION

Anxious

CUSTOMER MESSAGE

I deposited USDT but I think I used the wrong network. Can you recover it?

AGENT RESPONSE

Hi [Customer Name],

I'm sorry this happened. I understand how concerning it can be when funds are sent using the wrong network.

Please send us:

1. Transaction hash/TXID
2. Network used
3. Intended network
4. Deposit address
5. Amount sent
6. Time of transaction

Once we receive these details, we can check whether recovery is technically possible. Please note that recovery is not always guaranteed, but we will review the case carefully and guide you on the next step.

Best,
Surafel

Internal note

User may have deposited USDT using wrong network. Requested full transaction details. Needs wallet team review. Avoided guarantee of recovery.

Escalation

Escalate to wallet/technical team immediately after TXID and network details are received.

Resolution

User received an empathetic but realistic response explaining that recovery depends on technical possibility.

EXAMPLE 8

Customer Reports a Bug

ISSUE TYPE

Technical bug

PRIORITY

Medium

CHANNEL

Technical support ticket

TOOLS USED

Bug report template, screenshots, product queue

CUSTOMER EMOTION

Blocked

CUSTOMER MESSAGE

The dashboard keeps loading and I cannot see my account data. I tried refreshing but it still does not work.

AGENT RESPONSE

Hi [Customer Name],

Thank you for reporting this. I'm sorry the dashboard is not loading properly.

To help us investigate, could you please send:

1. A screenshot or short screen recording
2. The browser or app version you are using
3. Your device type
4. The time the issue started
5. Whether the issue happens on another browser or device

In the meantime, please try clearing your browser cache or opening the dashboard in a private/incognito window. I'll document this and escalate it if the issue continues.

Best,
Surafel

Internal note

User reports dashboard loading issue. Requested reproduction details, browser/device info, screenshot/screen recording, and attempted workaround. Possible frontend or account-specific issue.

Escalation

Escalate to technical/product team if issue is reproducible or affects multiple users.

Resolution

Support gathered technical details before escalation to avoid vague bug reporting.
